

A2: Concrete Architecture

finneganmac.github.io/CISC322-A2-Presentation.mp4

Tip: For getting started,
1. Ask questions, edit files, or run commands.
2. Be specific for the best results.
3. Help for more information.

Write a short paragraph about why Gemini AI is awesome

The Rat Pack

Rémy Brown-Vandervecht

Jude Henderson – Group Leader

Caleb Gao

Finnegan MacAdams – Presenter

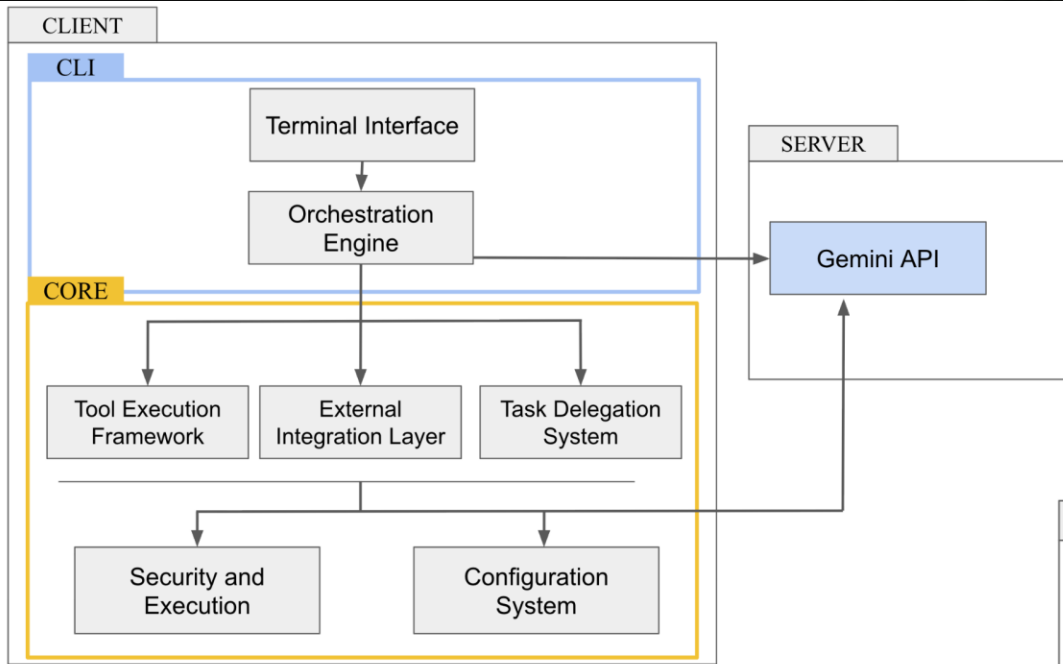

Cory Boys - Presenter

Aatman Gupta

tips for getting started:
1. ask questions, edit files, or run commands.
2. be specific for the best results.
3. help for more information.

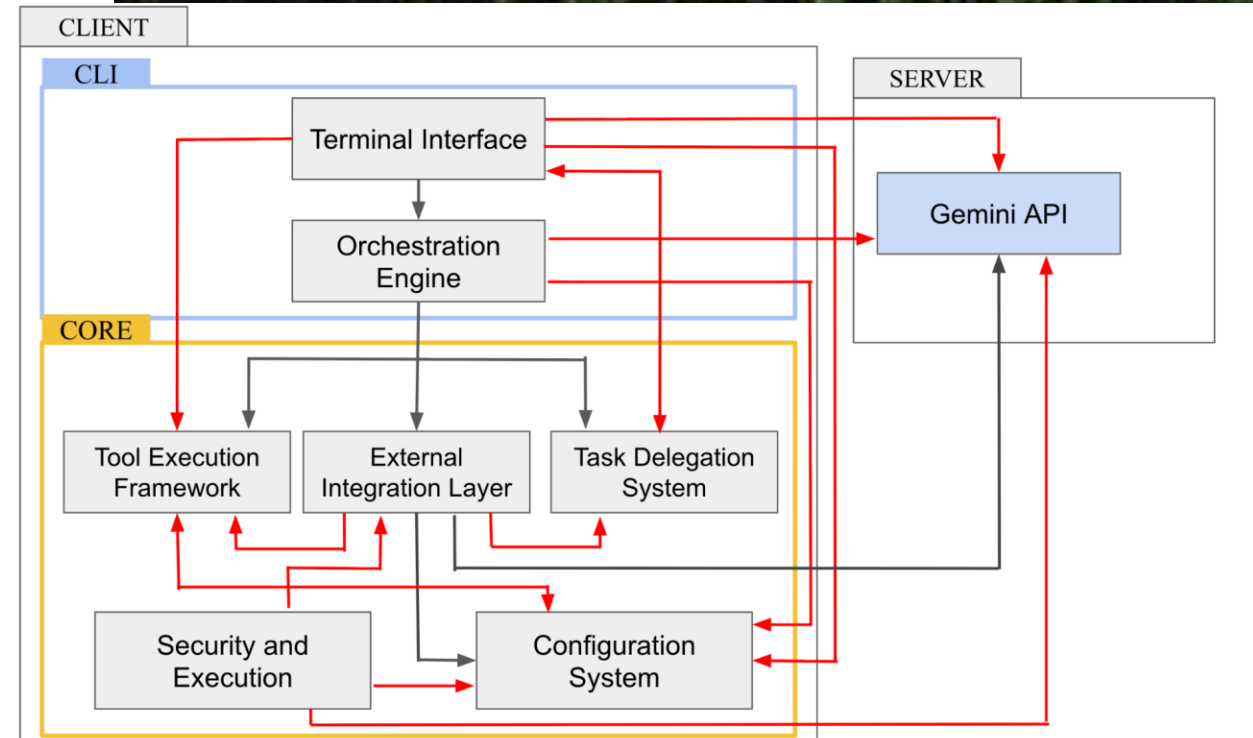

write a short paragraph about why Gemini III is awesome

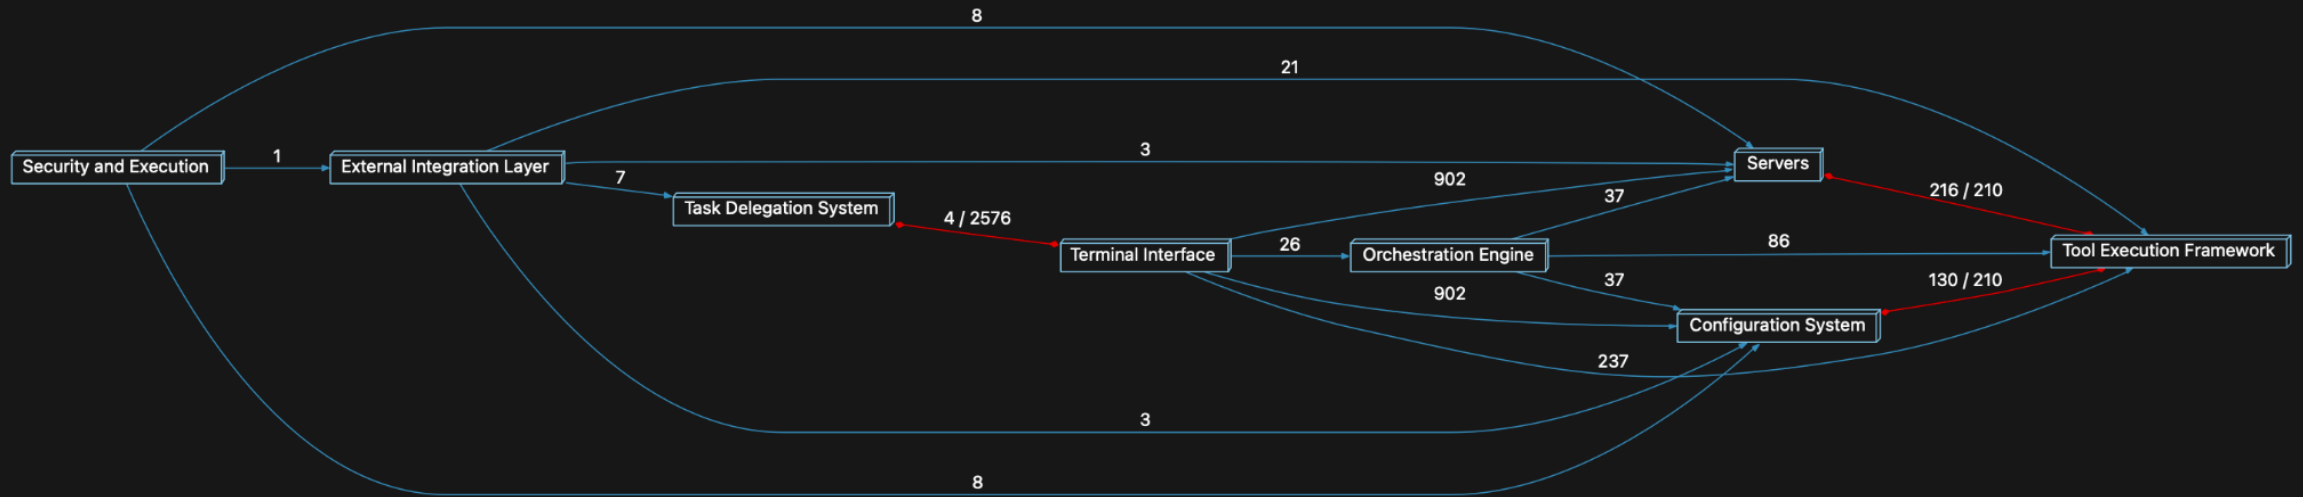

Conceptual Architecture

Architecture Overview

Concrete Architecture

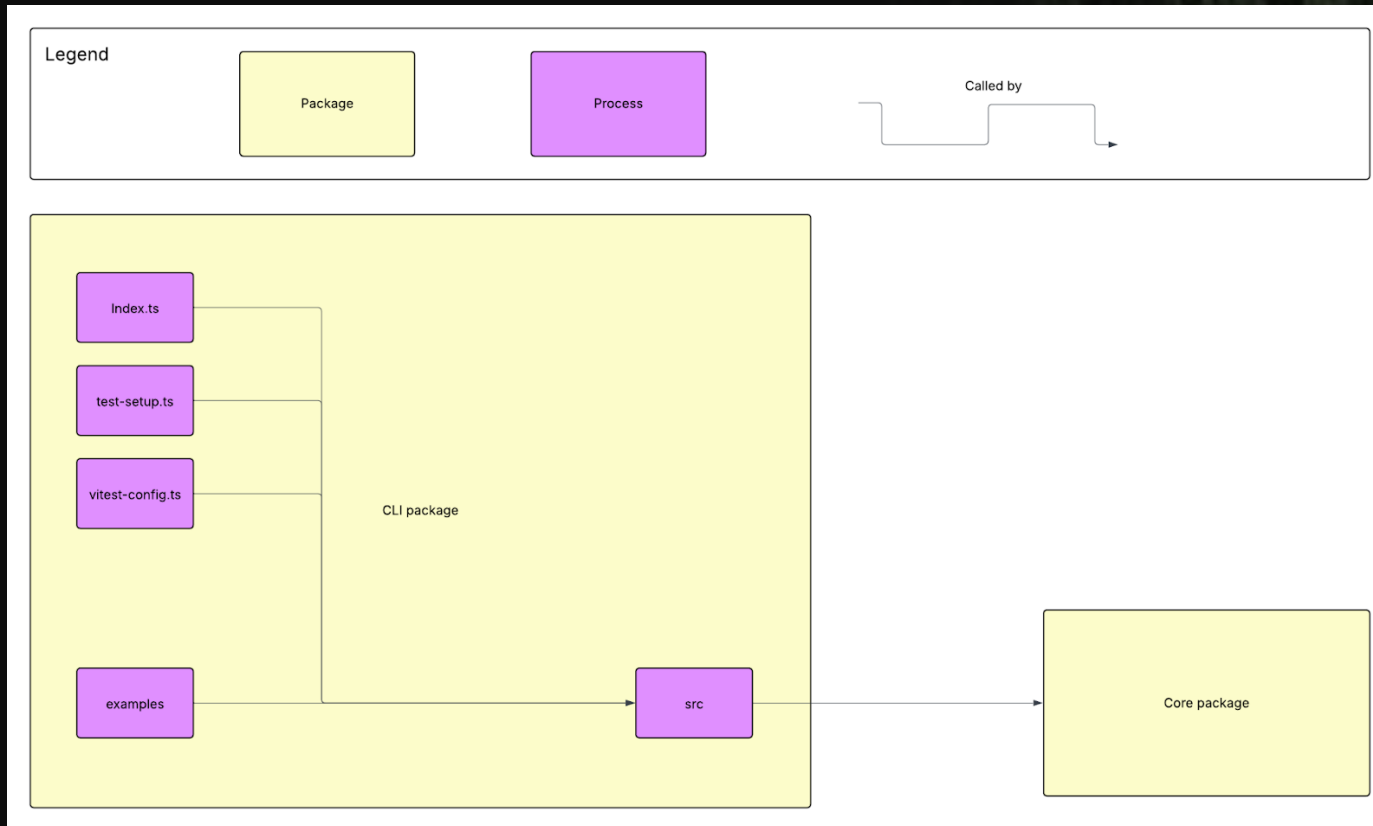

Derivation Process

SciTools' Understand

CLI Package – Inner Architecture

Node.js

- Initializes main program and handles errors

Test-setup.ts

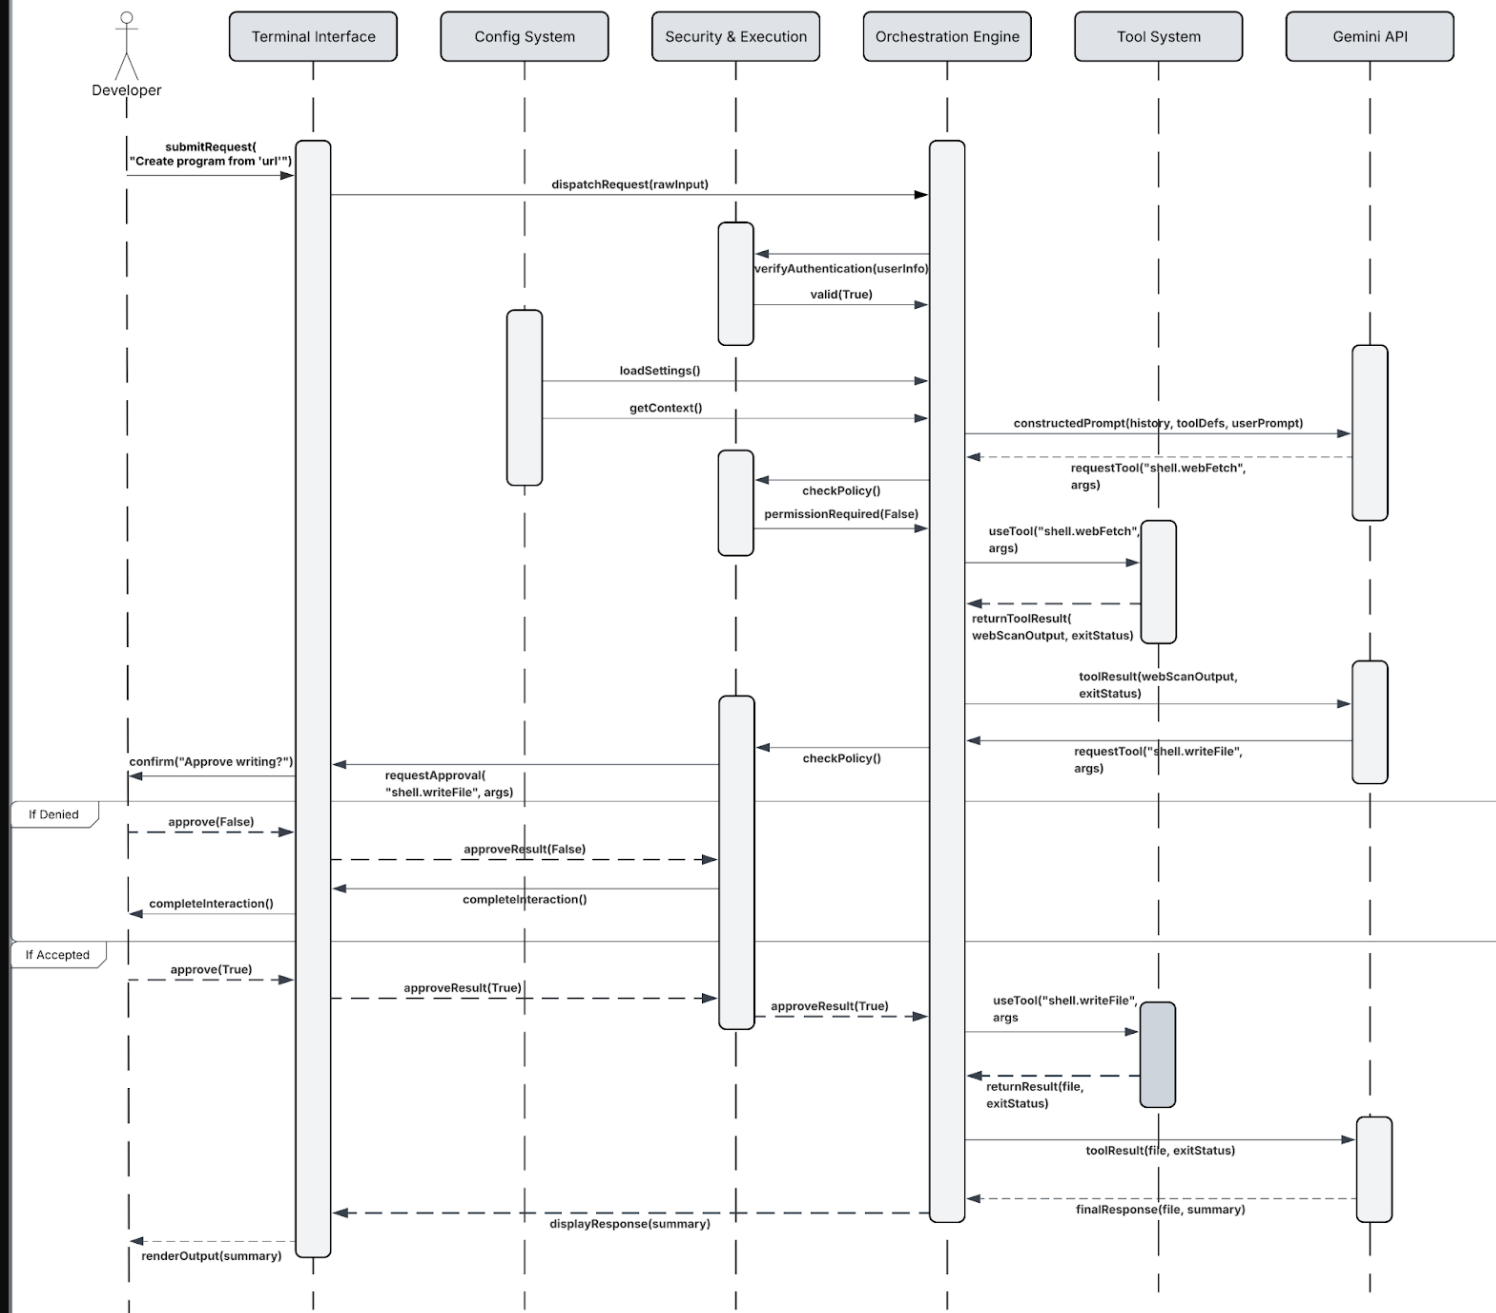

- Test setup function for Vitest

Vitest.config.ts

- Defines how tests should be discovered, reported, and executed

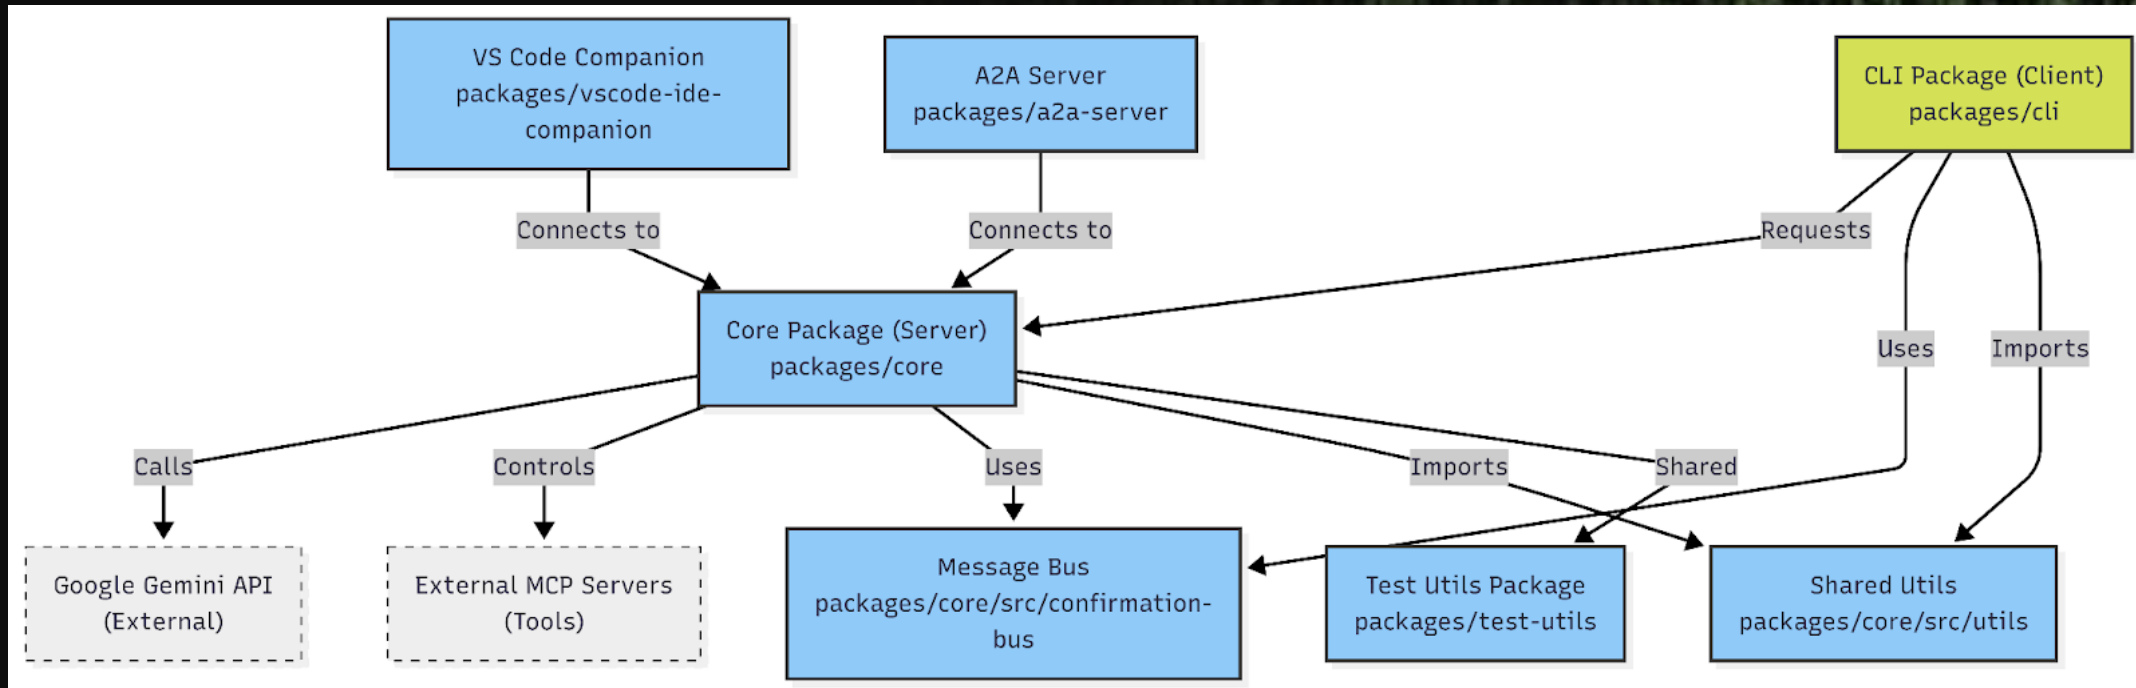

Scrollable-list-demo.tsx

- Implements terminal based demo application within React

USE CASE:
Create files from web specification

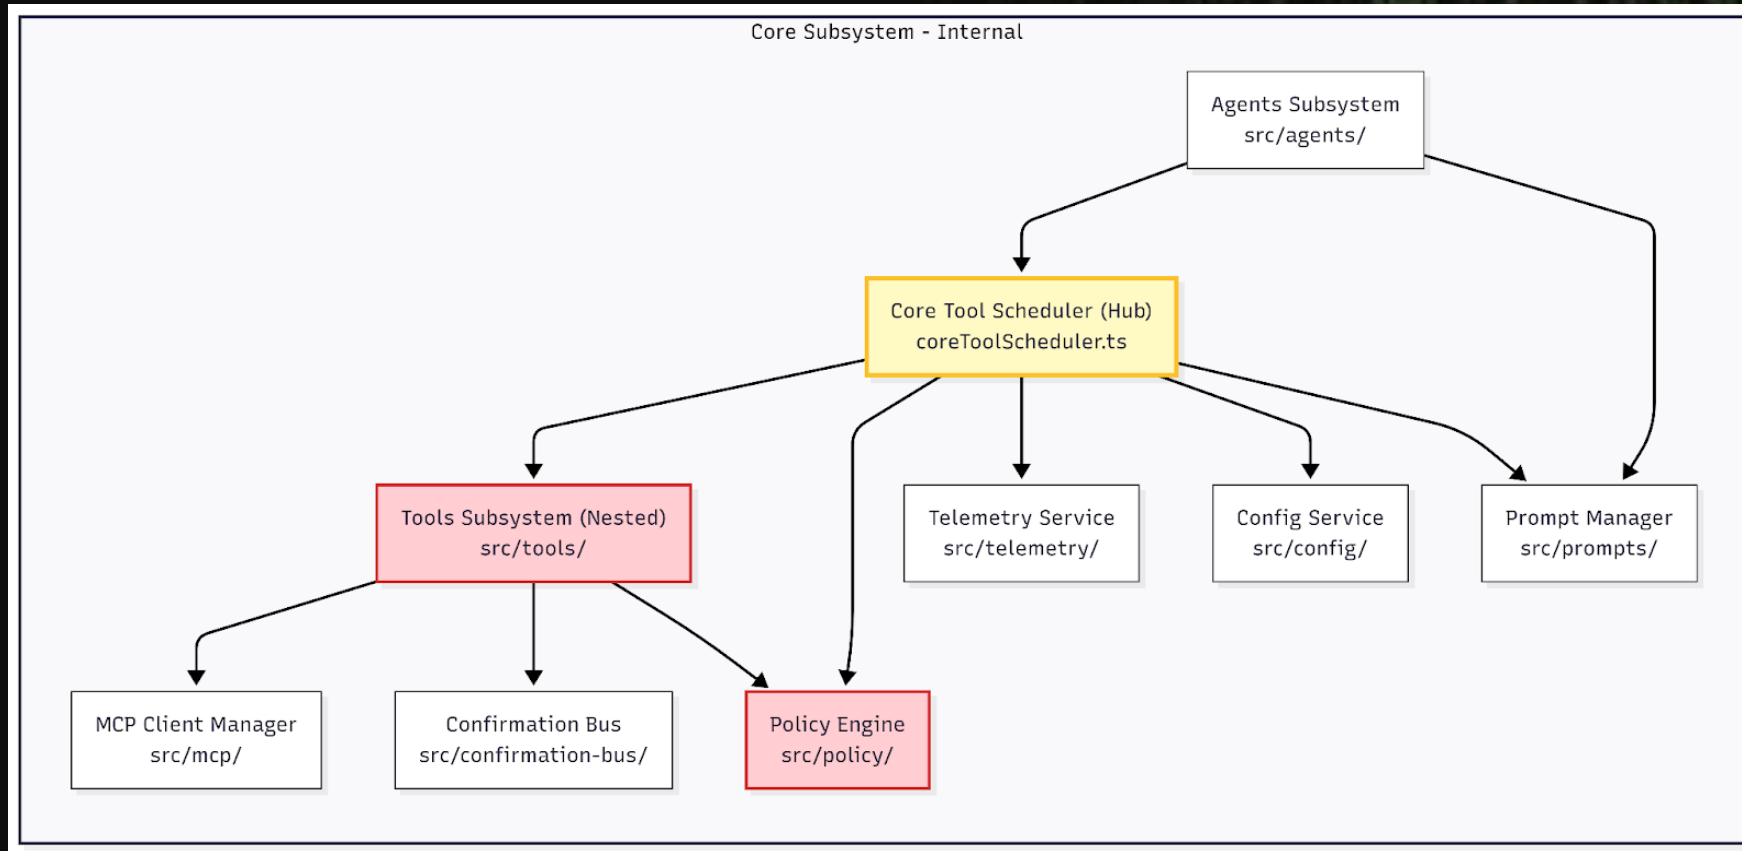

Reflexion Analysis – Style #1

Client-Server Model

Divergence: Tools Subsystem Structure

Reflexion Analysis- Style #2

Feedback Control System

Divergence #1

- Absence of environmental feedback loop

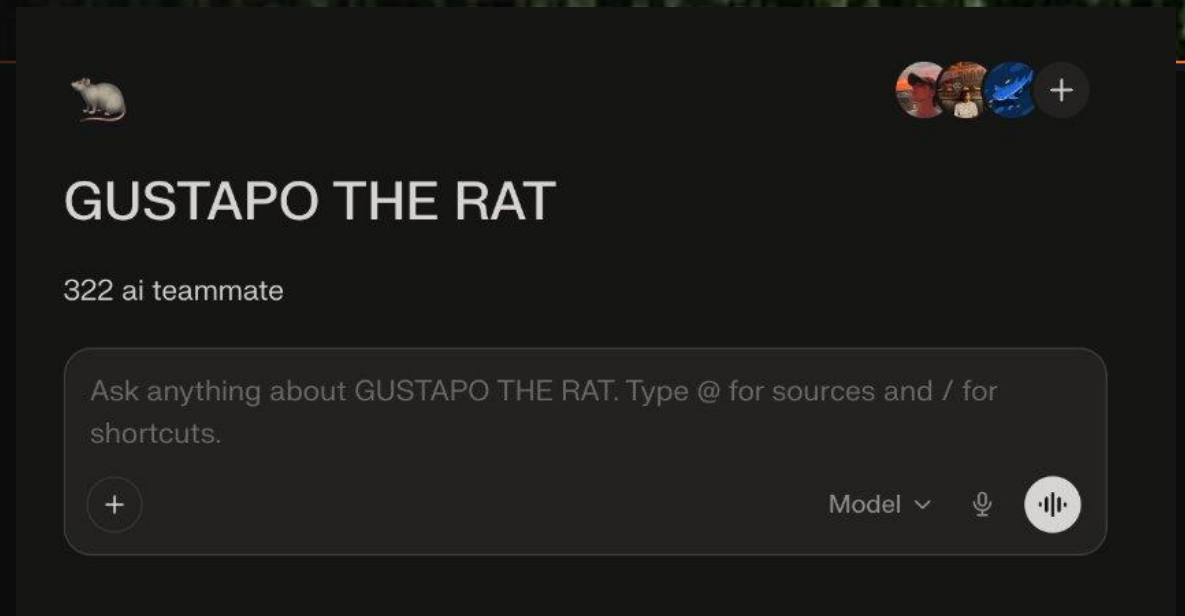

Divergence #2

- CLI as the Central Orchestrator

AI Usage - Gustapo

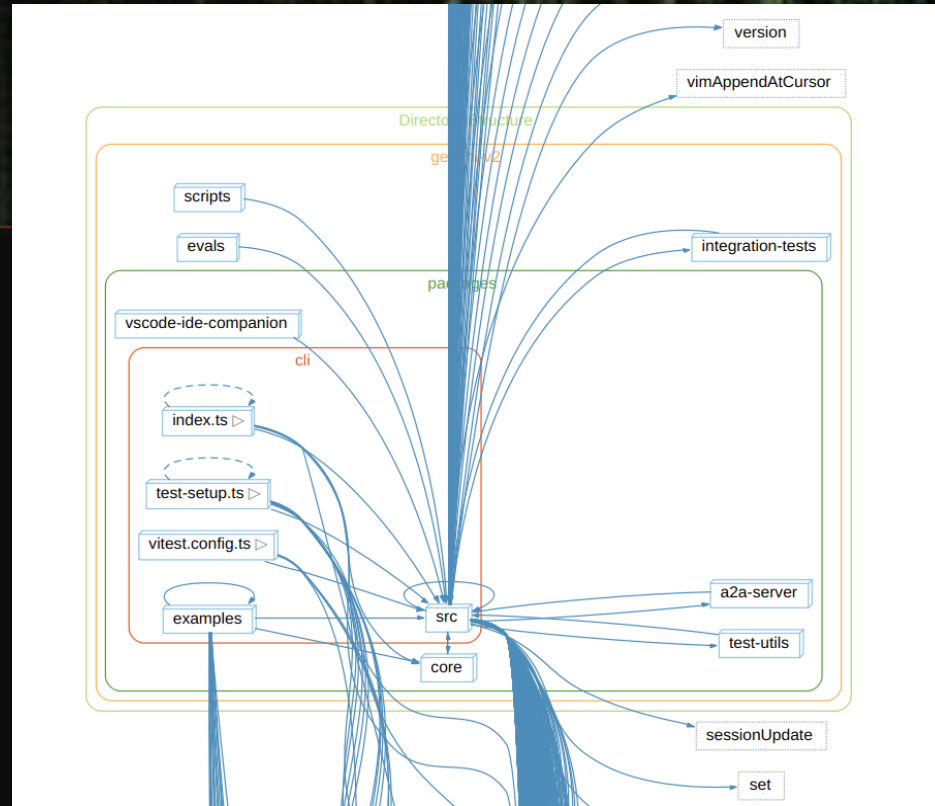

Perplexity AI – Gustapo the Rat

- Review of box-and-arrow and sequence diagrams
- Clarifying explanation for Use Case #1
- Marking scheme simplification
- Received feedback from Gustapo

Lessons Learned

- A1 Feedback
- SciTools' Understand

Conclusion

- Recovered the Architecture
- Analyzed the Architecture
- Compared to our Conceptual
